The Envision Resident Program

is a two-year, cohort-based program that intentionally aims to develop ministry readiness, discipleship values, cross-cultural agility, leadership, and spiritual soul depth and awareness. An Envision Residency is particularly designed for individuals or couples with a desire to serve long-term in ministry—whether overseas or domestic—living missionally where they are. This is an opportunity to experience a lifestyle of ministry at one of our Envision sites, learning from and being coached by Envision and site leadership.

The Residency program launches two times a year (fall and spring). Cohorts meet together for pre-field training and then progress through intentional content on a semester-based timeline at their site of service, using a mixture of tools, resources, and one-on-one coaching.
